RE: Curling Alberta Update

Happy Friday Club Manager and Presidents!

I wanted to bring to your attention the information below stating that the Flexibility for some nonprofits to delay AGMs and hold remote meetings has now ended. Please read the email below for more information on what this could mean for your club if you were delaying AGMs and holding remote meetings. This may be important information to bring to your board.

I would like to invite you all to read the attached awards announcement and help celebrate these amazing individuals. We are lucky to have such passionate leaders in our curling community. Read about the winners [here](#).

We understand that many of you are working tirelessly on your return to play protocols at your club right now. Please send me your club specific protocols when they are completed so that we can collect them for other clubs to refer to as they work towards completing their club specific version. These documents will be added to the Club Repository. If you are not already part of the Club Repository, please click [here](#) and request to join.

I encourage you all to use the Curling Alberta Affiliated Club Facebook group to share tips and best practices with each other and to ask one another questions. This platform has been created to help you communicate with other club managers and presidents around the Province. If you have not yet joined, please click [here](#).

Lastly, Curling Alberta wants to help promote your club reopening efforts. Please tag us on Facebook ([@CurlingAlberta](#)) or Twitter ([Curling Alberta](#)) so that we can share your post on our page. Let's work together to let Alberta know that curling is back!

Have a great weekend!

Britney Andersen
